FISCAL ANALYSIS

ASSUMPTION

St. Louis Officials did not respond to this proposal, however, officials did respond to fiscal note request 973-01 which is almost identical. Officials submitted the following statement:

Officials of the **City of St. Louis** stated that this proposal could cause a drag on housing values in city neighborhoods and in turn lead to a reduction in property tax receipts. Similarly, those sales taxes and other revenues generated by the typical city resident could also decline. Officials stated *the costs of this legislation are not quantifiable*. Officials assume the fiscal impact would be negative.

Oversight assumes no state or local fiscal impact.

No direct fiscal impact to small businesses would be expected as a result of this proposal.

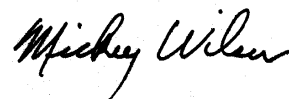

DESCRIPTION

This proposal prohibits St. Louis City from requiring that peace officers reside within the limits of the city and prohibits discrimination against any non-resident peace officers. The city may require a peace officer to reside in the State of Missouri as a condition of employment. The city may provide incentives, such as housing supplements or vehicle-use guidelines, to encourage peace officers to locate within the city, but cannot authorize the use of department property as an incentive.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
